Meet our Happy Clients

Overall team **very customer focused** and **delivering**.

Thank you very much to everyone involved in this project, making this **achievement possible!**

- Global head of customer services

HUGE thank you - you all have moved mountains. thank you for all the hard work"
"**best. group. ever. genuinely loved working with this collective group.** And what we created together in the short amount of time was **outstanding**. Can't THANK YOU all enough, **huge appreciation**.

- Director Regional Operations

Handover went seamlessly and Infosys contribution made a big difference to the different partners . Infosys extensive knowledge of the Qualtrics platform and attention to detail made a noticeable impact by quickly **identified effective solutions to complex challenges**, as well your **proactive communication** and **collaborative approach** across different team (Back-end, Front-end and Adobe).

- Global B2B Digital Experience, Jr Manager

Established **really well** as our go to Technical SME, and you have been key to helping drive innovation on the Qualtrics Product , **worked well** with all team members and have been **great at helping to guide them also done some good documentation**, including SOPs, which has **helped** with knowledge transfer across the team.

- Head of supporting Technology and Digital

Infosys Team, this is very much appreciated and recognized.
Thank you so much

- Head of Engagement & Talent

Infosys team were **extremely responsive** and **worked very fast**. I **enjoyed working with them greatly**.

- Vice President, HR

Infosys Team were **outstanding**. They **collaborated well** with the team and **delivered our needs in efficient time**. Additionally, they went above and beyond to ensure that we were knowledgeable about survey maintenance, capabilities, and access to resources post infant care. I **hope to partner with this team in the future for Cummins' needs**. Thanks again for an **awesome experience**.

- Program and Planning leader

We would like to thank each one of you for the **hard work, diligence and all the effort taken in successfully meeting the challenging delivery timelines**. We sincerely extend our **appreciation** and hope that the good work continues in the future as well. 😊

- IT Senior Executive

Great team!
Responsive and flexible.

- Director Corporate Finance, IT, M&A

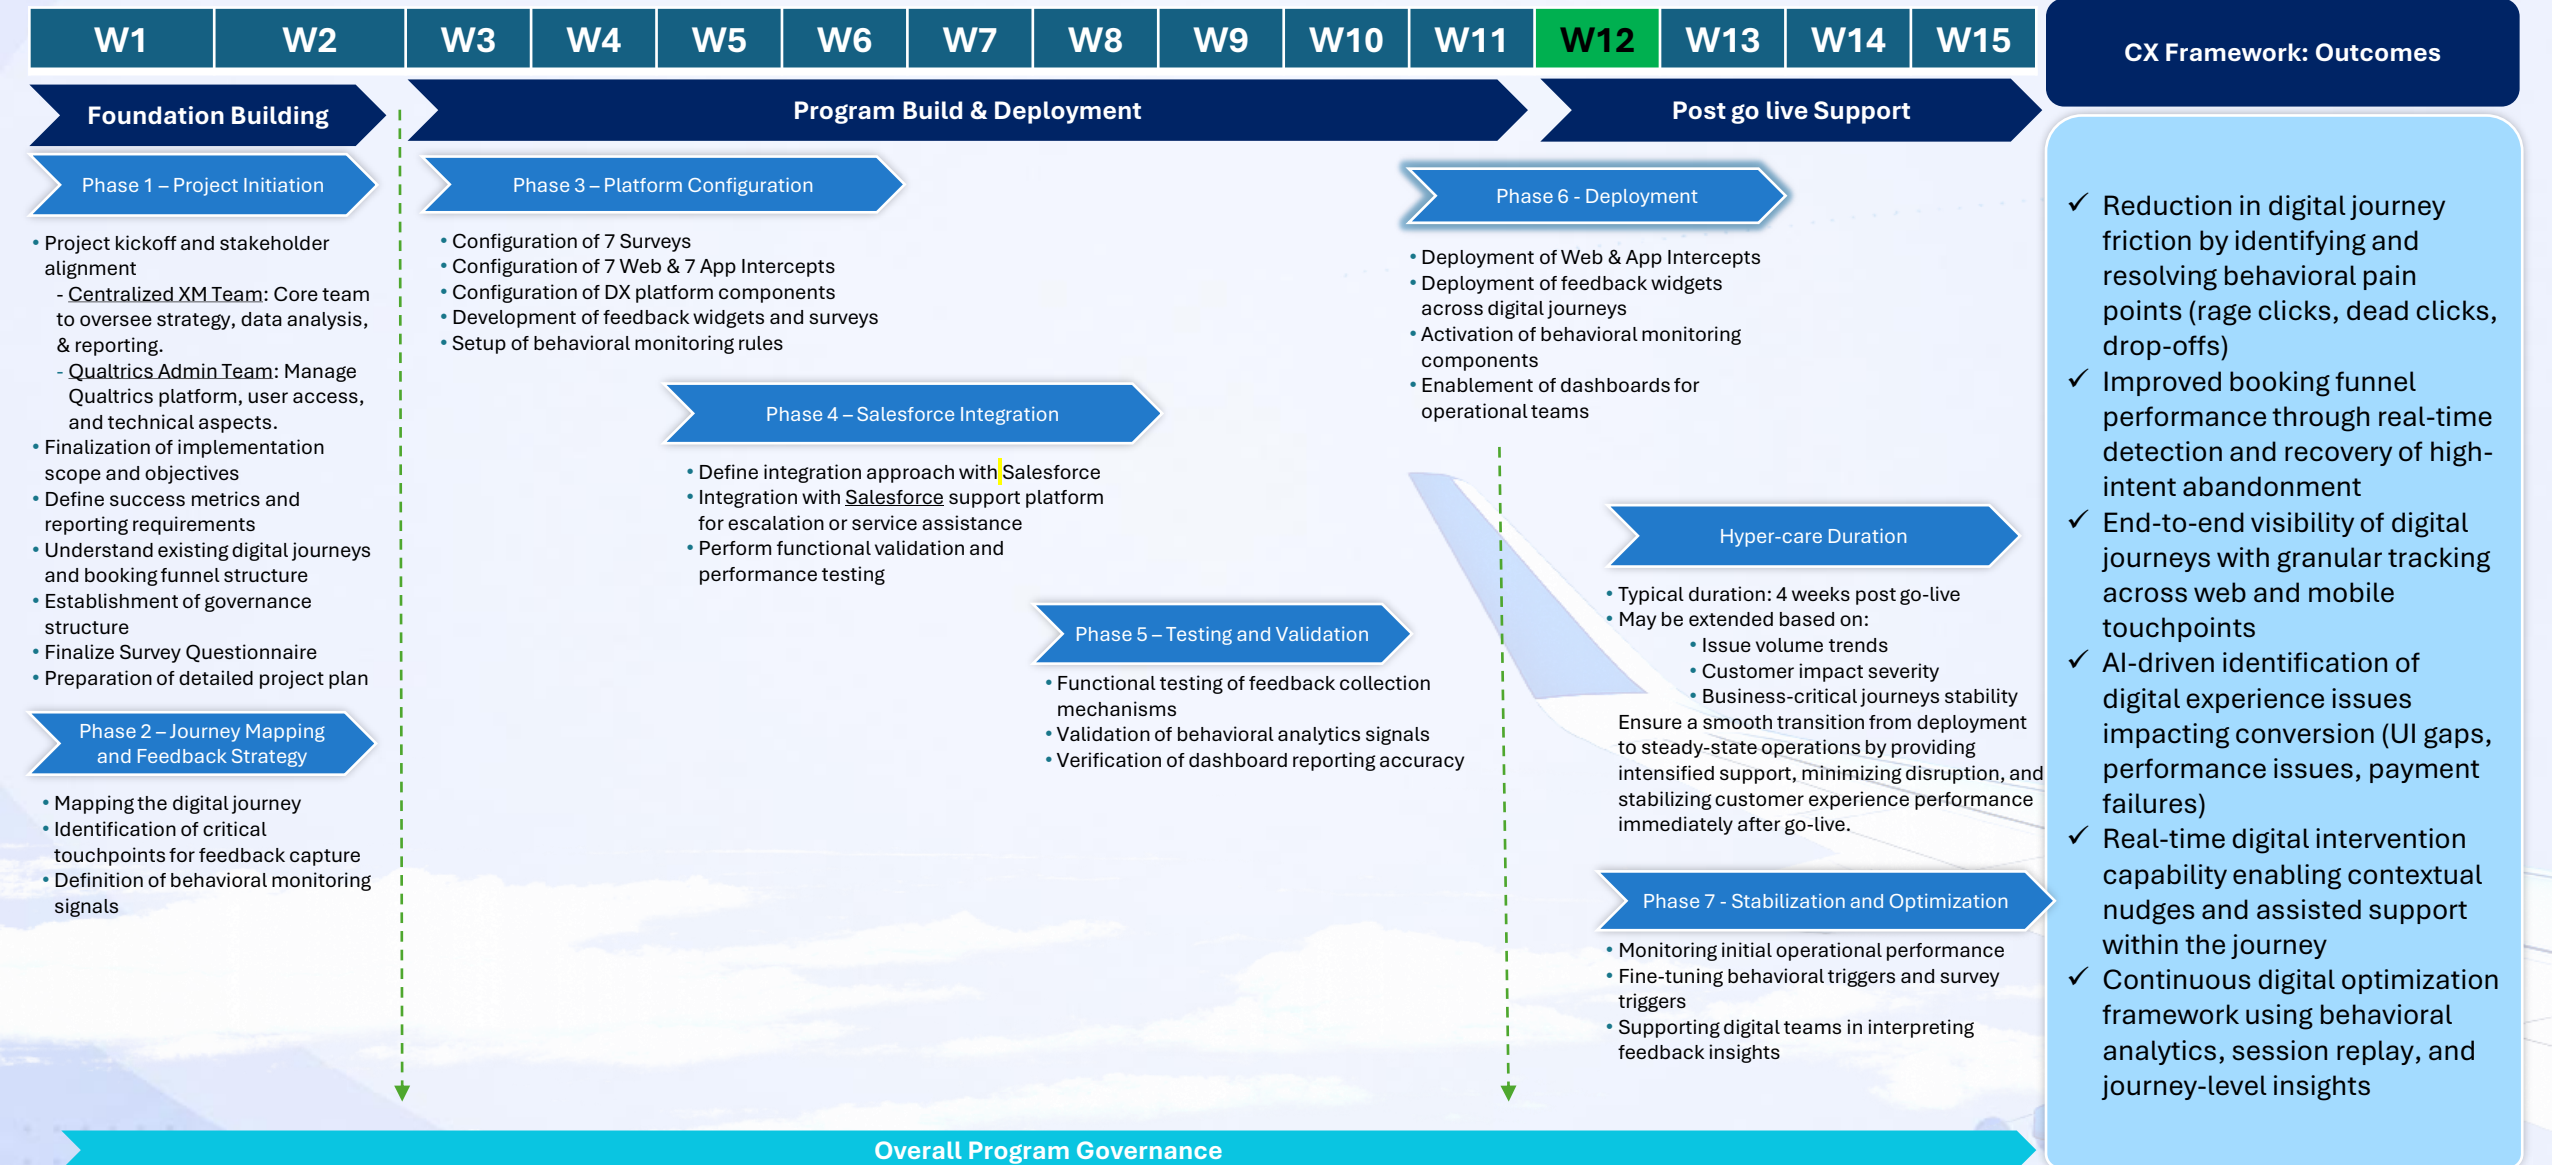

I'd like to take this opportunity to say a **HUGE** thank you for **all your support** in getting this integration live. We really do appreciate it, especially the additional support when you had officially rolled off! No doubt our paths will cross again but in the meantime do take care, it's been a pleasure to have worked with you.

- SAP Enterprise Product Owner

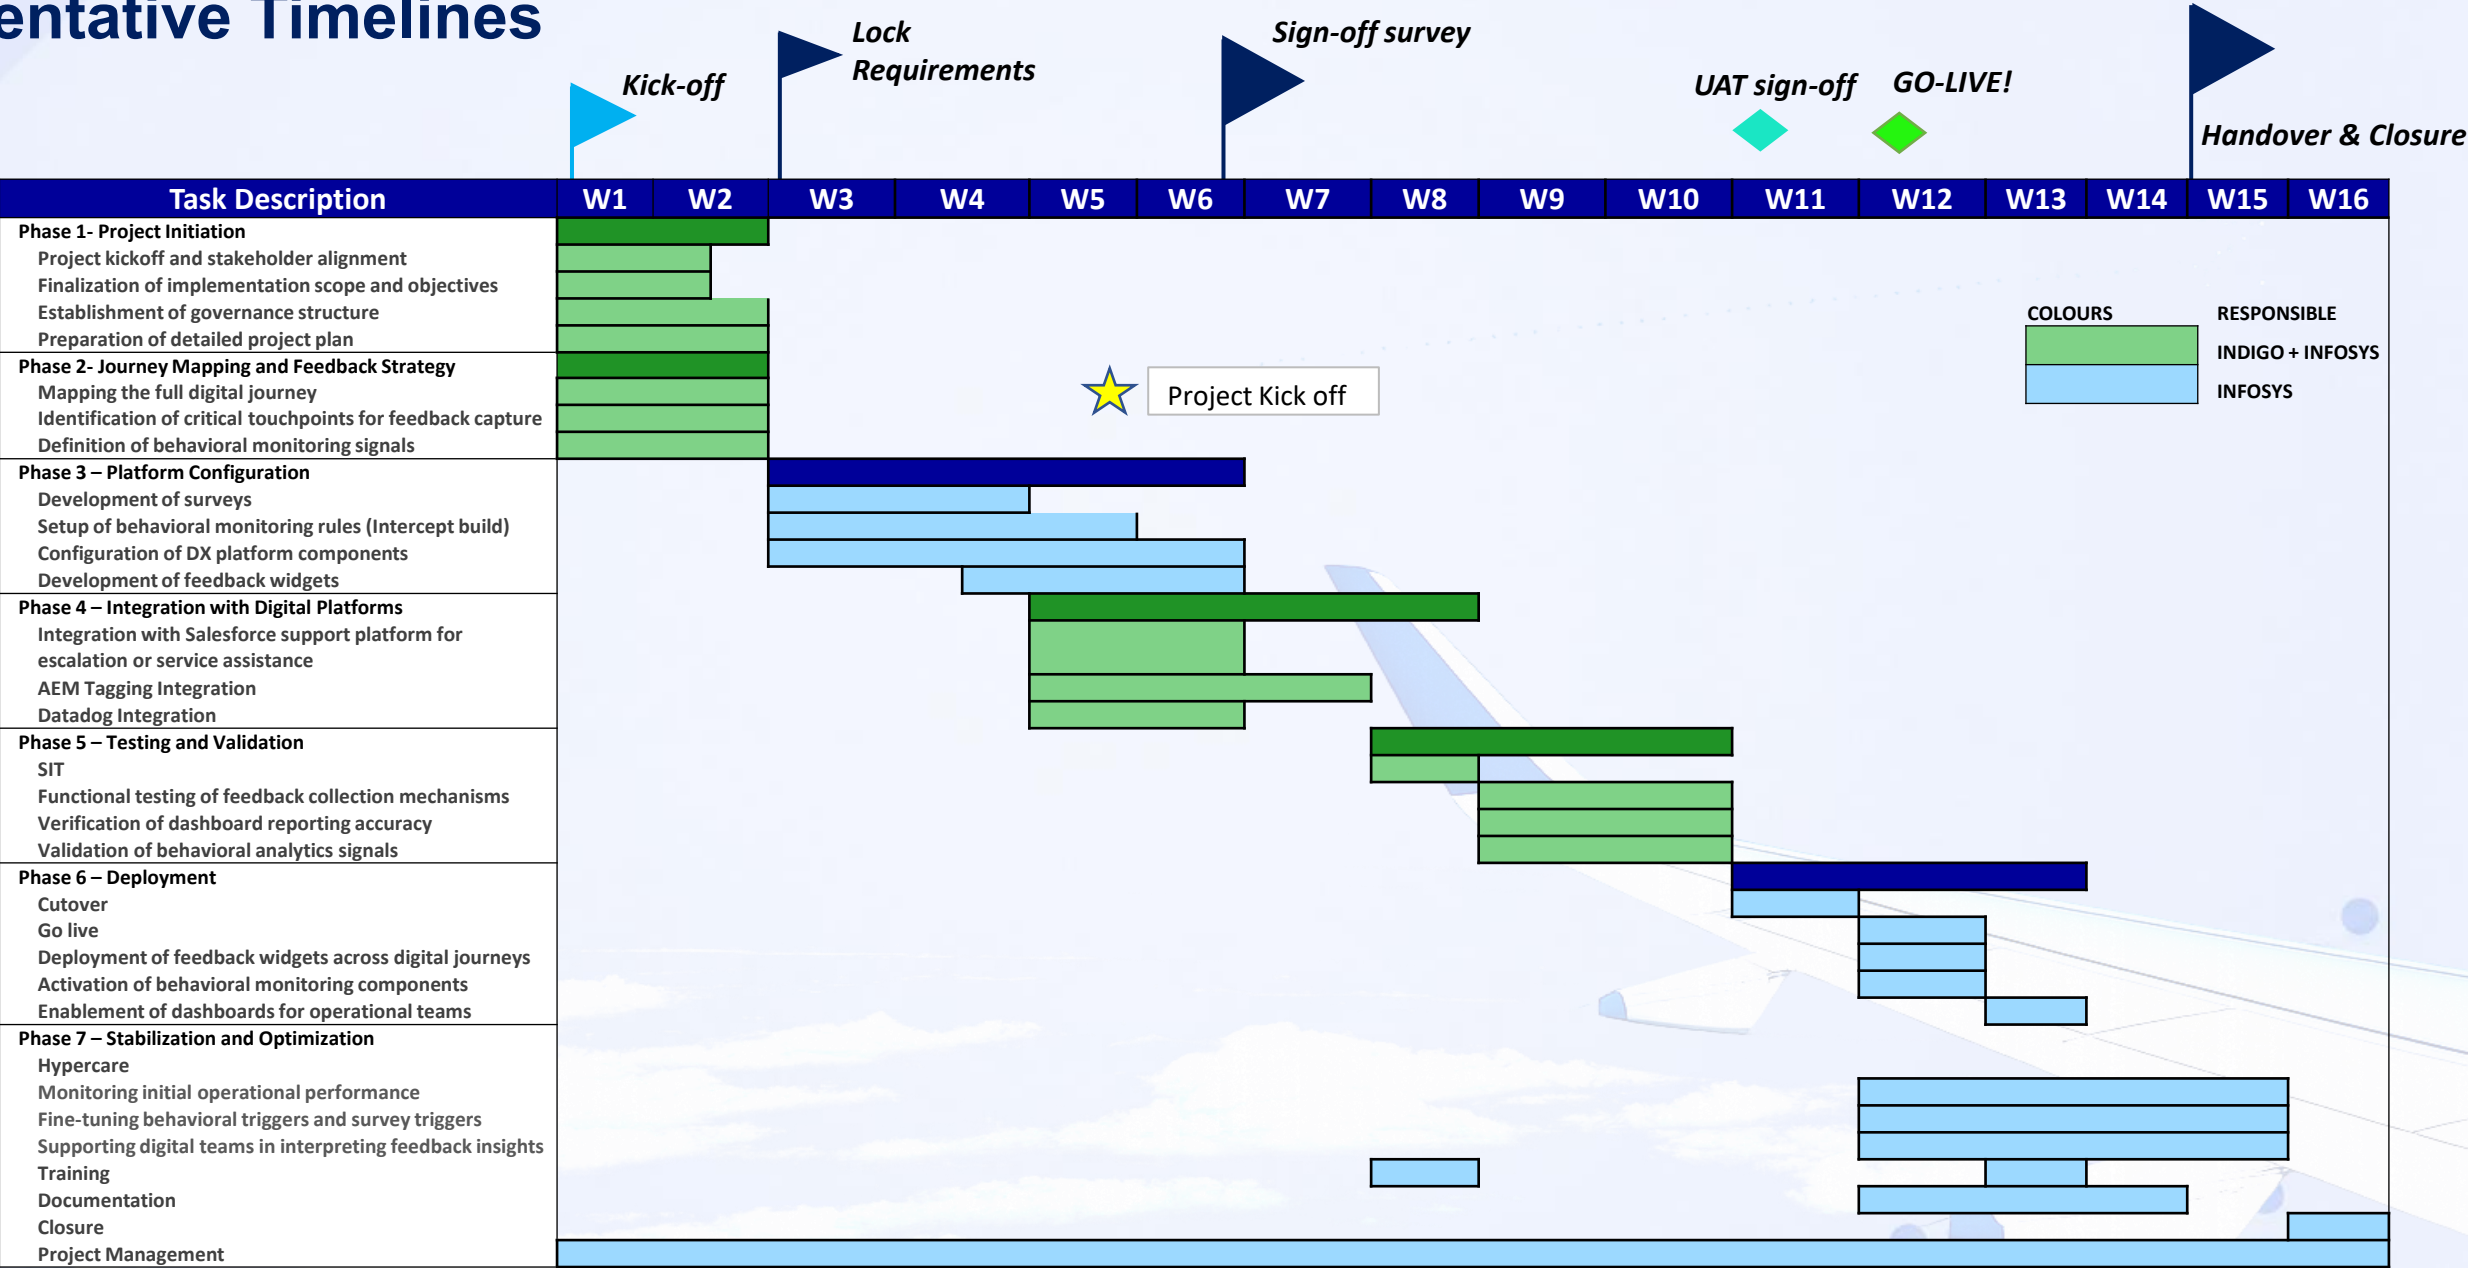

Our Understanding of the Scope

S.No	Activities/Task	Description
1.	DX Journey Coverage	Full journey configuration in Qualtrics. E.g.: Flight Search , PDP, Passenger Details, Add-ons, Payment, Booking Confirmation, Web Check-in (7 Journeys)
2.	Program Build	7 Survey Build, Configuration of 7 Web & 7 App intercept-based triggers
3.	DXA Implementation (Web)	Qualtrics DXA Implementation for Website
4.	Integration	Integration with Salesforce for ticketing and escalation workflows
5	Dashboard Build	1 consolidated dashboard covering each stage of journey, Operational dashboard for support teams, Identification of revenue impacting friction drivers, Role-based access control for up to 15 roles
6.	Text IQ	AI-based text analytics for open-ended response processing
7.	Stats iQ	Statistical analysis and correlation identification
8.	Predict iQ	Predictive modelling for abandonment risk and issues
9.	SIT	End-to-end testing to ensure all integrated components work seamlessly.
10.	UAT , Functional Testing & Validation	Validation of all survey, tracking, and interventions
11.	Go-Live & Deployment	Production rollout of all components
12.	Hypercare	Post-go-live support and monitoring
13.	Training & Documentation	User training and detailed documentation for smooth adoption and support
14.	Program Management	Timeline tracking and coordination

Implementation Framework

Tentative Timelines

Note: This is a tentative timeline and may be subject to change based on client requirements.*

Account Level Engagement	Infosys Client Engagement	Project Initiation, Extensions & New Requirements	Leadership	Project Initiation, Extensions & New Requirements

Assumptions

General Assumptions

- Survey Questionnaire to be provided by Client
- Project Advisory is not considered in the Current Scope
- Feedback collection will be implemented using standard Qualtrics intercept capabilities.
- Survey logic will leverage standard conditions (URL, events, basic behavior signals) without complex real-time personalization in initial phase.
- Creation of the events in the webpage to be done by the Client Team
- Mobile intercepts will be deployed using Qualtrics Mobile SDK
- Client IT team will be responsible to deploy Web & App Intercept Snippet.
- Up to 5 Questions per Survey is considered in Scope.
- Survey Build will be done in English language Only.
- Closed Loop Ticketing within Qualtrics is not Scoped in Current Scope.
- Client CX Team should be available to Participate in UAT and provide Signoff
- Consolidated StatsIQ will be created within the Dashboard
- We will provide the training on how to run the analysis, outcome to be defined by client.
- Up to 2 Questions each per survey is considered in Scope
- Will utilize Qualtrics Defined Text Topics for Text Analysis, Custom Text Analysis is not a part of current Scope.
- 1 Consolidated Dashboard for up to 15 Roles will be Implemented
- Ticket Management & Ticket Escalation is a part of Salesforce and is not considered in current Scope
- Any requirements beyond the defined scope will be managed through formal change request and may impact cost and timeline.

Technical Assumptions

- Qualtrics OOB Connector will be utilized for Salesforce Connect.
- Complex workflow automation and custom object creation are excluded unless explicitly defined.
- Client will provide required Salesforces credentials and support for Integration
- Data mapping will be limited to agreed fields during design phase.
- AEM and data Dog Integration is not considered in the Current Scope
- Any Custom Development, Custom Integration, Middleware development outside of Qualtrics is not as part of this Scope
- Behavioral monitoring will leverage Qualtrics Digital Experience (DX) out-of-the-box capabilities. Custom behavioral events are not considered in this scope.
- Signals (rage clicks, dead clicks, etc.) will be Captured using standard Qualtrics DX / integration capability
- Cart abandonment detection will be based on standard behavioral signals (exit intent, inactivity, page drop-offs). For any custom detection need event trigger from the website
- High-intent customer identification logic will be rules supported by Qualtrics. For Any custom rule and not include advanced predictive modeling.
- Recovery interventions will be limited to on-site engagement (no external remarketing automation included).
- Client to provide pre-existing assisted channels to redirect and route users to chat/call Support

CX Use Case – Reimagining Customer experience for a global power technology leader

Qualtrics-CX

1

CUSTOMER ORDER MANAGEMENT FEEDBACK

Capture customer experience post order management scenarios.

Key Drivers

- Order Entry
- Order Management
- Customer Representative
- Product Delivery
- Product Return
- Product Availability

Business Benefits

- Improved Order Experience
- Increased Product Sales
- Order process Gap Analysis

2

POST PURCHASE & DELIVERY FEEDBACK

Capture customer experience post purchase and delivery.

Key Drivers

- Quality
- Timeliness
- Dependable
- Responsive
- Caring
- Knowledgeable
- Effort

Business benefits

- Improved Customer Sentiment
- Improved Customer Retention
- Easy ticket resolution

3

SERVICE AND PARTS FEEDBACK

Capture customer experience post technician visit and parts sales and service.

Key Drivers

- Availability
- Knowledge
- Timeliness
- Quality
- Dependable
- Responsive
- Caring
- Effort

Business Benefits

- Improved Service Quality
- Targeted Parts Availability
- Increased Parts Sales

4

CUSTOMER CARE FEEDBACK

Capture customer experience post customer care interactions. Tickets are created in Qualtrics based on customer feedback with a multi level escalation matrix.

Key Drivers

- Response Time
- Knowledge
- FTR
- Communication
- Responsive
- Caring

Business Benefits

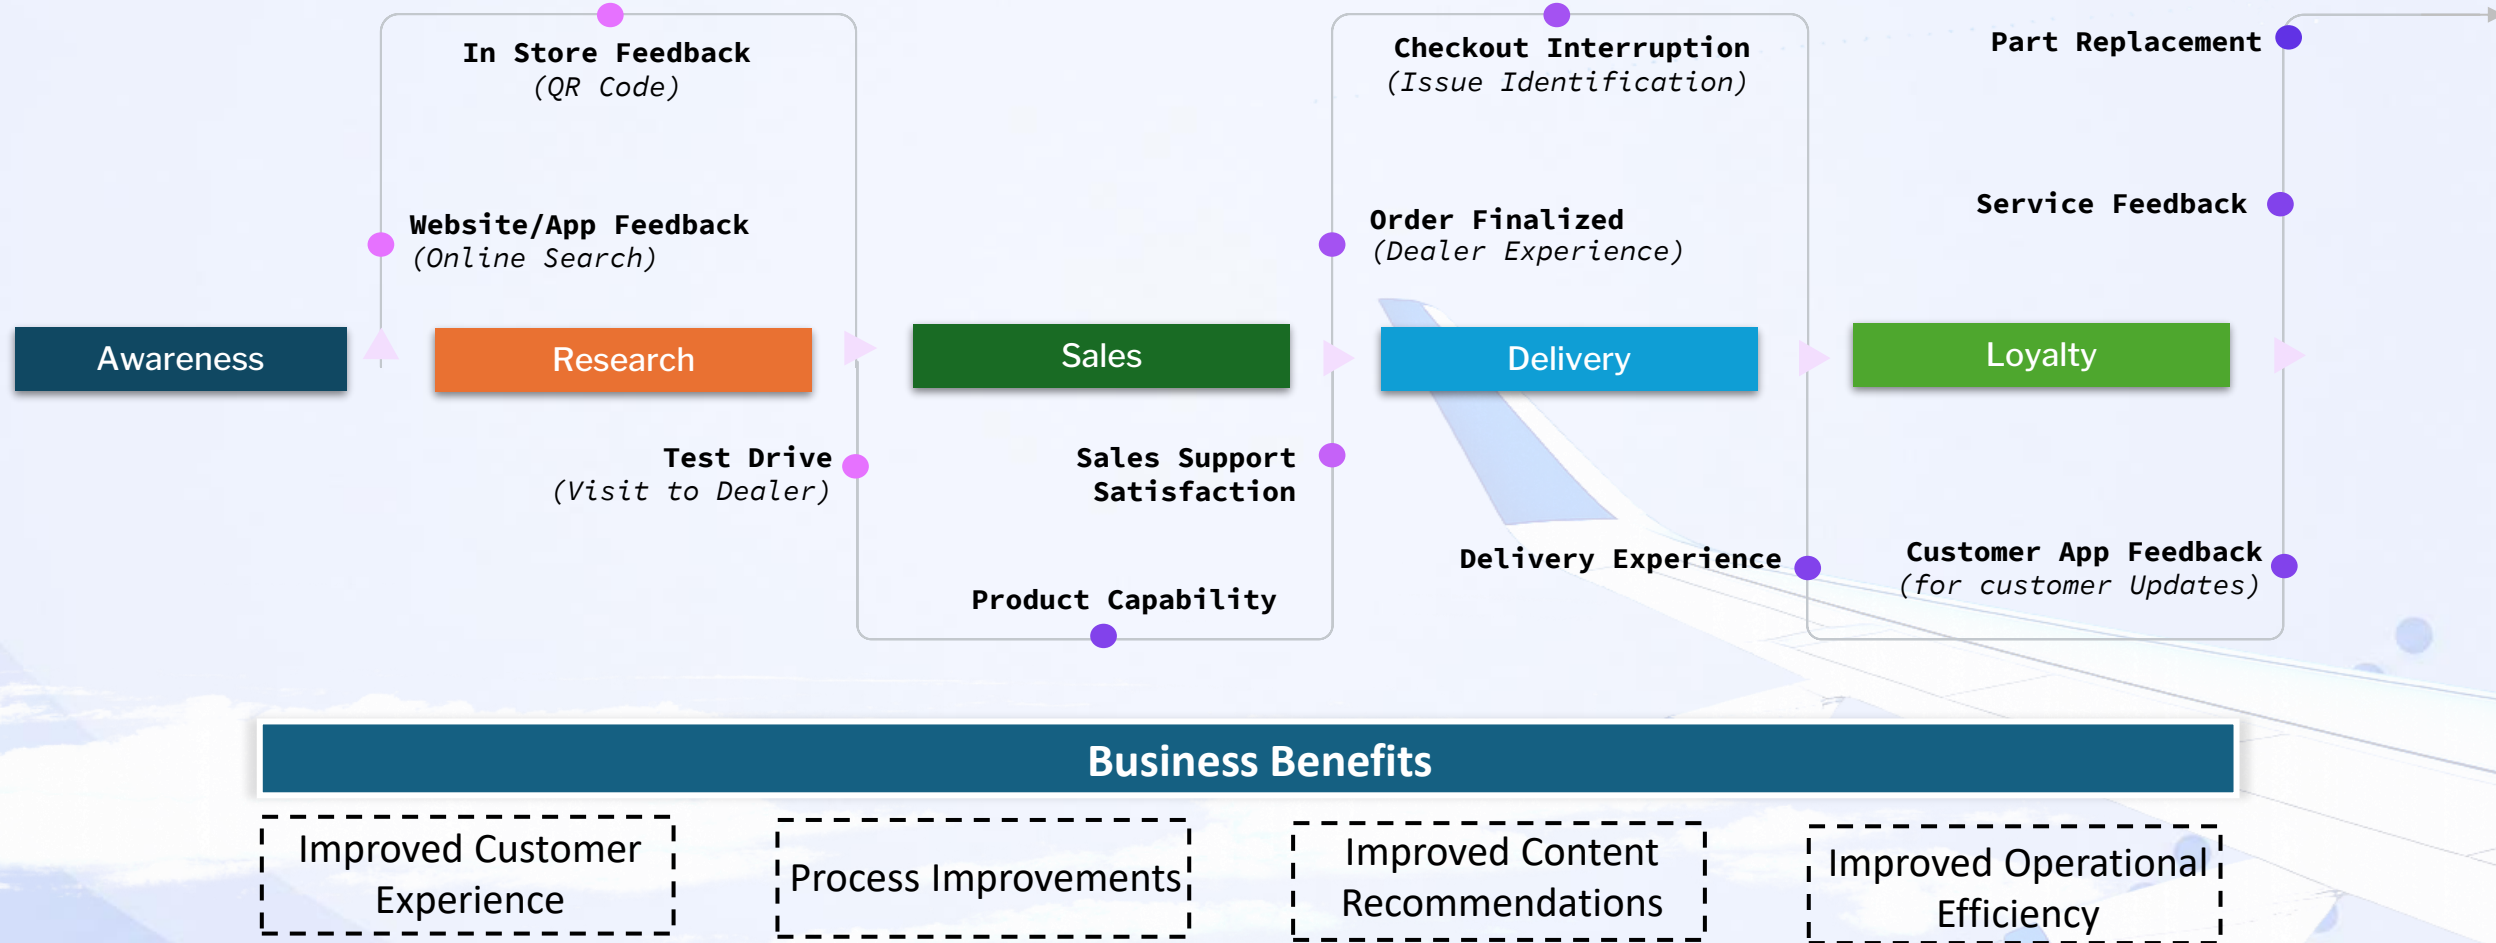

- Improved Customer Sentiment
- Improved Customer Retention
- Easy ticket resolution
